WORK EXPERIENCE

Audittrust (KAP Jonnardi, Jamaludin, Sukimto & Rekan) | Full-Stack Software Engineer & IT Audit Specialist

November 2024 – Present

- Designed and produced a methodological report based on binary data forensics and high-privilege account profiling for fraud investigation purposes.
- Designed IT Audit Working Papers for documentation.
- Performed ITGC and ITAC assessments during system checks to ensure client digital infrastructures satisfy data integrity, security, and system reliability requirements.
- Independently architected the full lifecycle of two specialized ERP systems for data management, performance tracking, and automated invoicing to reclaim 20+ hours of labor/month.
- Delivered end-to-end technical presentations directly to the Board of Directors.

BINUS University | Web Programmer Intern

September 2020 – February 2021

- Developed a front-facing cinema ticketing application utilizing HTML, CSS, and JavaScript, focusing on seamless data retrieval and user search functionality.
- Leveraged jQuery to implement robust user input validation and dynamic data display, ensuring the integrity of movie information and user-submitted search queries.

EDUCATION

- **BINUS University** | *Bachelor of Science in Computer Science* | 2017 – 2023
- **Universiti Utara Malaysia** | *Student Exchange – Computer Science* | 2020
