WORK EXPERIENCE

Auditrust (KAP Jonnardi, Jamaludin, Sukimto & Rekan) | Software Engineer & IT Audit Specialist

November 2024 – Present

- Independently architected and deployed two specialized ERP systems that provide operational efficiency with the following functionalities:
 - Integrated automated invoicing engine that replaced disorganized manual workflows, reclaiming 20+ hours of labor per month.
 - Performance tracking that monitors employee work progress and team productivity.
 - Complex client data, proposal, and team structure management.
- Managed the full lifecycle of both platforms, implementing RLS, IAM and RBAC to protect sensitive client data.
- Engineered end-to-end business processes and delivered technical briefings to the Board of Directors to align ERP architecture with firm objectives.
- Designed IT Audit Working Papers and performed Tests of Controls (TOC) to ensure client digital systems aligned with regulatory standards.

BINUS University | Web Programmer Intern

September 2020 – February 2021

- Developed a front-facing cinema ticketing application utilizing HTML, CSS, and JavaScript, focusing on seamless data retrieval and user search functionality.
- Leveraged jQuery to implement robust user input validation and dynamic data display, ensuring the integrity of movie information and user-submitted search queries.

EDUCATION

- **BINUS University** | *Bachelor of Science in Computer Science* | 2017 – 2023
- **Universiti Utara Malaysia** | *Student Exchange – Computer Science* | 2020
